2509-8:7.708.1. FAMILY FOSTER CARE HOMES

A. “Family foster care home”, as defined at Section 26-6-102, C.R.S., means a facility that is certified by the county department or a child placement agency for child care in a place of residence of a family or person for the purpose of providing twenty-four (24) hour family care for a child under the age of eighteen years who is not related to the head of such home, except in the case of relative care. The term includes any foster care home receiving a child for regular twenty-four (24) hour care and any home receiving a child from any state-operated institution for child care or from any child placement agency. The number and age of foster children for which a license may be issued is determined by the following factors:

1. No foster child shall be placed in a foster home if that placement will result in more than four foster children in that home, or a total of eight children (foster and non-foster), or more than two children under two years of age, except in those instances in which the placement of a sibling group in a foster home would exceed the limits. If the placement of a sibling group results in exceeding the above limits, no other foster children can be placed in the home.

2. A family foster care home may serve a maximum of one foster child enrolled in Children’s Habilitation Residential Program (CHRP) and 2 other foster children or 2 foster children enrolled in CHRP and no other foster children, unless there has been prior written approval by the CHRP waiver administrator. Placements of three (3) children approved for CHRP funding may be made if the agency can demonstrate to the CHRP waiver administrator that the provider has sufficient knowledge, experience, and supports to safely meet the needs of all of the children in the home. In any case, no more than three (3) children enrolled on the CHRP waiver and no (0) non-CHRP children will be placed in one foster home. Emergency placements will not exceed maximum established limits. Facilities that exceed established capacity at the time the rule takes effect will be grandfathered in; however, with attrition, capacity must comply with the rule.

3. Family foster care providers who are serving foster children enrolled in the Children's Habilitation Residential Program (CHRP) waiver shall be in compliance with rules contained within the Department of Health Care Policy and Financing's Medical Assistance Manual at Section 8.508 (10 CCR 2505-10).

4. Family foster care may be provided to children from birth to 18 years of age and to those persons to 21 years of age who are placed by court order prior to their eighteenth birthday.

5. When a certified family foster care home only provides temporary emergency care for foster children, the home may be certified for up to six foster children with no more than two foster children, including the caretaker's own children, under two years of age. There can be no more than a total of six foster children in the home except in sibling placements. The number of additional foster children under six years of age to be cared for shall be specified on the certificate and in the home study. Such a family foster care home shall be designated as a receiving home. The designation shall appear on the certificate.

a. No foster child shall remain in that family foster care home at the receiving home rate longer than 90 consecutive days, in accordance with the requirements of Section 7.417.4.

b. The number of foster children to be cared for at the receiving home rate and any foster children to be cared for at the regular foster home rate shall be included on the certificate.

c. Each receiving home parent shall have two years experience as a foster parent, although the certifying agency may take into account other relevant education and experience.

d. Each receiving home parent shall complete 32 hours of on-going training every year as identified in his/her training development plan. This training shall include the following competencies.

1) Issues regarding emergency and crisis placement of children with unknown histories; and,

2) Dynamics of victimization issues, with emphasis on appropriate age and developmental levels; and,

3) Cultural, spiritual, and religious awareness, consideration for, sensitivity to, and tolerance of each child individually.

e. Because receiving homes are likely to have quick turn-over of the children in care, supervision and monitoring of the receiving home shall be carried out according to the following:

1) One face-to-face contact shall be made with the receiving home parent(s) at least every week when children are in placement in the home, with a minimum of two visits per month occurring in the receiving home.

2) Documentation of such contact shall be in the provider file, as well as in each file of all foster children in the home.

3) The purpose of the contact is to address any questions the receiving home parent has about the children in care, to observe child care when appropriate and to provide support to the receiving home parent.

f. A receiving home shall have a comprehensive annual evaluation, which includes a review of any critical incidents, any allegations of institutional abuse, and the skills, needs, and competencies of the receiving home parent(s).

6. A family foster care home may not be operated without a license or a certificate as required by law and Section 7.701.4 of these rules, and the number of foster children cared for in such facility may not exceed the number authorized by such license or certificate.

B. Family foster care homes may be licensed host family homes.

1. A licensed foster home may be a licensed host family home pursuant to the rules at Section 7.721.

2. Pursuant to 26-5.7-105(6), C.R.S., a licensed family foster care home approved as a licensed host family home shall not accept a homeless youth for placement under this section if there are any foster children currently placed in the home. No foster children may be placed while a homeless youth resides at the licensed foster home.

3. A family foster care home acting as a host family home for homeless youth shall receive additional training regarding homeless youth services and shall be designated as a host family home on the face of its foster certification.

4. Pursuant to Section 26-5.7-105(5), C.R.S., if the county or child placement agency referring the youth to the host family home or the host home parents determine that a referral for additional services needs to be made, they shall make a referral to the county of reference of the parents of the youth.

5. Notification

Pursuant to Sections 26-5.7-105(4) and (7), C.R.S:

a. When a youth under fifteen years of age is admitted to a host family home, the county or child placement agency referring the youth to the host family home or the host family home's parents shall notify the county department of residence of the parents of the youth within seventy-two (72) hours of the youth's admission.

b.
