Food and Beverage Pledges for Hospitals and Healthcare Systems

This fact sheet provides information about various national and regional hospital and healthcare pledge programs aimed at promoting healthy food and beverage environments. For each program, the following information is provided in the table below:

- an explanation of the commitments—with a focus on the beverage-related commitments;
- contacts and useful links; and
- a list of participating hospitals or states where there are participating hospitals.

Some pledge programs are specifically designed for hospital participation while others are more general. Hospitals that have made commitments that go beyond minimum standards in the pledge programs are also identified. A national pledge for individual healthcare practitioners is included as well. There are also many varieties of “Rethink Your Drink” and other types of individual pledge programs or media campaigns; however, the table below focuses on voluntary pledge programs specifically aimed at promoting systemic change in and across healthcare and worksite environments.

| **Healthier Hospitals Initiative (HHI)—Healthier Food Challenge**<sup>1</sup> | **Beverage Commitments:**<sup>2</sup>  
- Increase healthy beverage* purchases by 20% over a baseline year, OR  
- Increase healthy beverages to 80% of total beverage purchases for use throughout the hospital (patient, retail, vending, and catering)  

*Healthy beverages = water (seltzers and flavored waters), 100% fruit juice (4 ounces), 100% vegetable juice (<140 mg sodium), milk (unflavored AND Certified Organic or rBGH-free), non-dairy milk alternatives (unsweetened), teas and coffee (unsweetened with only naturally occurring caffeine).  

**Food/Other Commitments:**  
In addition to the Healthy Beverage commitment, the HHI Healthier Food Challenge program offers two other levels of food-related commitments:<sup>3</sup> Balanced Meals (decrease purchases of meat by 20% from baseline within three years); and Local/Sustainable Food (increase purchases of local and/or sustainable food by 20% annually OR increase local and/or sustainable food purchases to 15% of total food purchases within three years).  

HHI also offers other pledge categories designed to promote healthier healthcare systems, including: Engaged Leadership, Leaner Energy, Less Waste, Safer Chemicals, and Smarter Purchasing. | **Health Care Without Harm**

| **Hospital Healthy Food Initiative** | **Beverage Commitments:**  
- Limiting unhealthy beverages to a maximum of 20% of drinks available in the hospital  
- Increase the percentage of “better-for-you beverages” to 80% of overall beverage purchases by Dec. 31, 2015  
  - Water (includes fruit-flavored seltzers)  
  - 100 percent fruit and vegetable juice (4 ounce serving or less AND less than 140 mg sodium)  
  - Milk (unflavored) and dairy alternatives (unsweetened)  
  - Teas and coffee (unsweetened with naturally occurring caffeine)  
  - Non-caloric beverages (fewer than five calories per serving)  
- Make tap water or access to water stations available where possible  
**Food Commitments:**  
- provide labeling with calorie counts for all food and beverages in cafeterias and on patient menus;  
- create “wellness meals” for cafeteria and patient menus that meet defined nutritional profiles and price those meals equal to or less than the cost of other meal options;  
- remove all deep-fat fryers and deep-fried products from hospital cafeterias and patient menus;  
- market only healthy food and beverage items in cafeterias;  
- meet defined nutritional standards for 60% of entrees and side dishes; and  
- increase fruit and vegetables to 10% of total food spending, or increase spending on fruits and vegetables by 20% per year. | **Partnership for a Healthier America**

(206) 859-2500

Several hospital systems have designed their own voluntary healthy food and beverage strategies. Many of these hospitals also participate in one of the national pledge programs described above, and have decided to go beyond the pledge commitments. The strategies vary, but the practices of eliminating sugary drinks at some or all service points, providing nutritional information at vending machines, and increasing the availability of “healthy” beverages (such as low or nonfat milk, unsweetened coffees and teas, waters and seltzers, and 100% juice) are typical across programs.

- Lucile Packard Children’s Hospital (Palo Alto, CA)20*
- San Mateo Medical Center (San Mateo, CA)21*
- Baptist Health South Florida (Miami and Southern FL)22 — six hospitals
- Vanguard Health (Chicago, IL)23 – four hospitals*
- Indiana University Health (Indianapolis, IN)24 — six hospitals in system, extended to 12 other hospitals in the state*
- Carney Hospital (Boston, MA)25*
- Fairview Hospital (Great Barrington, MA)26*
- University of Michigan Health System (MI)27 — all hospitals, health centers, administrative buildings, and the Medical School*
- ProMedica (Northwest OH and Southeast MI)28 — All 11 hospitals in the ProMedica system*
- Mercy Children’s Hospital (Kansas City, MO)29*
- Dartmouth-Hitchcock Medical Center (Lebanon, NH)30*
- Cleveland Clinic (Cleveland, OH)31*
- Nationwide Children’s Hospital (Columbus, OH)32*
- Dayton Children’s Hospital (Dayton, OH)33
- University of Pennsylvania Health System (Philadelphia, PA)34
- Baylor Health Care System (Dallas/Fort Worth, TX)35 — over a dozen hospitals*
- Gifford Medical Center (Randolph, VT)36*
- Seattle Children’s Hospital (Seattle, WA)37*

*Indicates hospitals that have eliminated sugary beverages, whether at some or all service points. See endnotes for full details.

Additional Resources: This resource is part of the Public Health Law Center’s Healthy Beverages in Healthcare Toolkit. The full toolkit and individual factsheets are available for download at http://www.publichealthlawcenter.org/resources/healthy-healthcare. For more information about the Kansas Hospital Association’s Healthy Kansas Hospitals Initiative, please visit http://www.kha-net.org/CriticalIssues/HealthyKansasHospitals/.
Endnotes

3 The completion of one policy pledge is a Level 1 commitment, two policy pledges is a Level 2 commitment, and so on.

5 Becoming a partner hospital facility or system with the Partnership for a Healthier America’s Hospital Healthy Food Initiative requires a three-year commitment to all of the beverage and food pledges listed above. Partnership for a Healthier America, Hospital Healthy Food Initiative, Hospital Overview Memo (copy on file with the Public Health Law Center).

6 Partnership for a Healthier America, Hospital Healthy Food Initiative, Healthy Food Commitment template (copy on file with the Public Health Law Center).

7 Partnership for a Healthier America, Hospital Healthy Food Initiative Details (Oct. 16, 2012) (copy on file with the Public Health Law Center).

9 The Karat Gold Partnership offers three levels of commitment (14 Karat Gold, 18 Karat Gold, 24 Karat Gold). The minimum commitment (14 Karat Gold level) is to increase purchasing of foods grown or raised within 250 miles of Kansas City by 2%, or by five items, or to maintain at least 50% purchasing from local producers; and to incorporate three new local food purchasing best practices and at least 1 new sustainable food service best practice. ages/Documents/HospitalHealthyBeverageActivitiesSummary.pdf Additional information about this campaign is available at http://www.bphc.org/whatwedo/

13 For activity summaries that include helpful information about the variety of strategies used by the hospitals to implement the goals, see Boston Pub. Health
Comm’n, Healthy Beverages in Hospitals Campaign, id.

14 The Boston Public Health Commission also created a Healthy Beverages Toolkit which is available for download. Boston Pub. Health Comm’n, Healthy Bever-
a poster explaining the “Red, Yellow, Green” labeling system; the poster can be downloaded from http://www.cityofboston.gov/news/uploads/43367_33_7_52.pdf.

17 The NYC Healthy Food Initiative provides standards tailored to each of four types of outlets (cafeterias/cafes, beverage vending, food vending, and patient meals)
that hospitals can implement in a step-wise fashion. The full sets of standards for each outlet are available at id.

9, 2013).

19 The Seattle/King County Public Health Department’s Healthy Vending Toolkit is available at http://www.kingcounty.gov/healthservices/health/nutrition.aspx.

20 Lucile Packard Children’s Hospital Food and Beverage Policy includes restrictions on beverages available in cafes, cafeterias, and vending machines. The policy is

21 San Mateo Medical Center’s elimination of sugary drinks is part of a larger food service makeover. Sugary drinks were eliminated from vending machines only.
Vending machine sales remained stable after the phase-out; cafeteria sales experienced a $350 per day increase. Get Healthy San Mateo County, Healthier Hospital Cafeteria

22 Baptist Health South Florida instituted “Wellness Advantage Meals,” which include spring water as part of their patient meal service. CTRS For Disease Con-
tral And Prevention, Healthy Hospital Practice To Practice Series (P2P) 2, available at http://www.cdc.gov/nccdphp/dnpao/hwi/downloads/p2p/
P2P_Food_Issue2.pdf.

23 Vanguard Medical Group of Chicago has pledged to “refine its choices, eventually phasing out diet drinks and sweetened juices until it offers only unsweetened drinks
or those that contain less than about a teaspoon of sugar per 12-ounce serving” over a 12-month period. Monica Eng, [Chicago Hospital Group to Drop Sugar–Sweet-
story.

24 Indiana University Health system will no longer offer sugary drinks in cafeterias, vending machines, and gift shops. However, on-site vendors, such as McDonald’s,
hospitals-no-sugary-drinks/2192673/.

Fairview Hospital eliminated sugary drinks through a step-wise process beginning with price increases for sugary drinks, which eventually led to a soda sales phase-out in the cafeteria, catering, vending machines, and patient menus. The next step will be reducing portion sizes of the 100% juices offered. Sugary drinks are still offered upon physician’s recommendation in patient meals. Inst. For a Sustainable Future, *Fairview Hospital—SSB Elimination Case Study* (Aug. 22, 2010), [http://www.powerprism.org/Alliance-FairviewHospitalSSB.pdf](http://www.powerprism.org/Alliance-FairviewHospitalSSB.pdf).

As of mid-November 2013, the UMHS no longer sells regular soda and other sugary drinks in vending, cafeteria and patient care areas, both on and off the medical campus. The UMHS is part of the Healthier Hospitals Initiative. New Healthy Beverage Initiative For All UMHS Locations (Oct. 1, 2013), [http://medicine.umich.edu/medschool/about/news/new-healthy-beverage-initiative-all-umhs-locations](http://medicine.umich.edu/medschool/about/news/new-healthy-beverage-initiative-all-umhs-locations).

The hospital announced as of May 1, 2014, it will stop selling sugar-sweetened beverages and sports drinks at all of its locations. Press Release, Dayton Children’s Hospital, Dayton Children’s Hospital to Stop Selling Sugar-Sweetened Beverages on Campus (Mar. 13, 2014), [http://www.childrensdayton.org/cms/media_releases/sugarsweeteneddrinks/index.html](http://www.childrensdayton.org/cms/media_releases/sugarsweeteneddrinks/index.html).

Seattle Children’s Hospital sugary drink restriction is part of a larger “Mission: Nutrition” initiative encompassing both food and beverages. Sugary drinks containing more than 10 calories per 8 ounces serving are not offered in the cafeteria, gift shop, and vending machines. On-campus vending machines not owned by Seattle Children’s are not covered by the policy. Seattle Children’s Hospital, Mission: Nutrition, Frequently Asked Questions About the Cafeteria, Vending and Gift Shop Food and Drink Changes (Sept. 2012), [http://www.seattlechildrens.org/pdf/mission-nutrition-FAQ.pdf](http://www.seattlechildrens.org/pdf/mission-nutrition-FAQ.pdf).
